

Clean Air - Customer Reviews

Debbie Gordon - Hospital Administrator, Raleigh, NC

Since using the unit, I have noticed a major reduction in the amount of dust in our home. Thank you so much for introducing us to the Fresh Air system. I'm a fanatic about cleaning - we have "weekly family house cleaning", and all the baseboards in the house are wiped down. I am finding it hard to justify wiping down all the baseboards on a weekly basis since we have been using the Fresh Air unit because my family is noticing a lot less dust. In a pinch, I can even skip weekly dusting in some areas of the house. I have been keeping the Fresh Air unit in a room where the kitty litter box was formerly located. While spring-cleaning, the Fresh Air unit was unplugged for a few days. When I walked into the room, the kitty litter box odor almost knocked me over. I plugged back in the Fresh Air unit, and a couple of hours later, the odor was gone.

Also, the hospital administrator at one of our facilities has suffered with allergies for years, and they have to sleep with special bedding due to allergies to dust mites. Her younger daughter was not sleeping well at night due to severe allergies as well. Since having the new Fresh Air system in their home, everyone is sleeping peacefully. Thank you for making me happy by helping me keep my home cleaner and by keeping one of our administrators healthier.

Kellie Conley - Raleigh, NC

After having the Fresh Air unit in our home for two weeks, my daughter and I both sleep through the night. My 8-year-old daughter and I both suffer from allergies to pollen; dust mites and your everyday house hold air.

We spent everyday sneezing and having itch watery eyes. It seemed like we would start and finish each day sneezing. My daughter and I were not even able to get a full-night's rest, due to our allergies. We were both miserable. I had tried every type of allergy remedy that I could find. Unfortunately the medications would just mask the problem and we still feel awful. When a good friend recommended the Exquisite air machine to me I was skeptical at first, but agreed to the free trial. Amazingly we could smell a difference in the quality of the air in just over one day. When my husband came home from work and said how good the house smelled, I knew it must have been working. After only having the Fresh Air unit in our home for two weeks, my daughter and I both could sleep through the night without sneezing. We now wake up feeling well rested, and the best part is: no more medications, and NO MORE SNEEZING!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!

Clean Air - Customer Reviews

To the folks at Exquisite Air and Water

I wanted to write this letter in of testimony and to express my thanks and appreciation to your company for my purchase of my air purifying system. We have an office space of 1,500 sq ft and have regular customer traffic coming through each day. We had the usual issues that most offices face, but also have a restaurant located right next door and had a problem with food odors coming through the wall. When you presented the Fresh-Air unit with the 3 day trial, I was impressed. Since we have purchased the Fresh-Air system the air quality has greatly improved in the office and the odor from next door has disappeared. Thank you for taking the time to go over the product and for introducing us to the system. It has been great and your service since we purchased has been fantastic too.

We purchased the Fresh Air Surround from Stuart over a year ago, it has definitely improved the air quality in our family room, and the health of our family!

Ahhhhhhh, to breathe once again

My husband and I opted for the two day trial for the air cleaner. We were sceptical about what it could do but were frankly amazed at the results after such a short time. The house felt cleaner than it ever had been. THANKS!
