Water Softener

Yes, I purchased my home new in 2004 and after my wife and I moved in we noticed that our water fixtures were turning orange and we used a lot of soap in our cloths and baths. A friend of mine recommended Exquisite Air & Water Services, so we contacted Stuart French he came out, analyzed our problem and made his recommendations, we purchased a water softener and UV light system and our water could not be better. We have actually had compliments on how good our water is. Thanks Stuart.

Excellent Service and Information

If you're looking for an air and water company you can depend on, don't look any further! We couldn't be happier with the service we received from Exquisite Air & Water Services. Stuart provided us with detailed information and helped design a water treatment system that would not only serve our needs, but most importantly, one we could afford. He has always been prompt with returning phone calls and on time for any appointments we've made. Our water quality is now superb! June 22, 2009 by Denise Vandervort in Hillsborough, NC

Excellent service, Stuart was prompt, polite and attention to detail orientated. He provided a wealth of information on the different types of water purification systems, as well as recommending the right services to meet my particular needs. If you are like me and don't know where to start with water purification systems, give Exquisite Air & Water Services a try, I highly recommend them.

Help, when help is needed

I met Stuart of Exquisite Water while suffering through the install of my water treatment system by another supplier. Stuart took over the project, corrected their mess, and has been my go-to guy ever since for all things related to my water treatment system.
