# The Wonderful World of Conditioned Water

. . . it makes a refreshing difference and saves you money too!

---

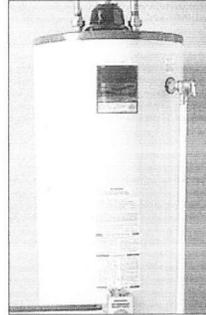

## **Soap Saver**

Hard water impairs the cleansing strength of detergents. Conditioned water not only delivers greater washing power, it reduces soap requirements (up to 70%). Protects your washing machine at the same time.

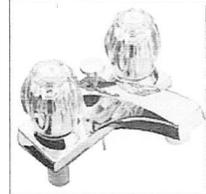

## **Clothes Brightener**

Clothes last longer; come out fresher, cleaner and softer when washed in conditioned water. Colors stay brighter too.

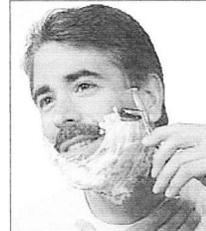

## **Money Stretcher**

The cost of your cleaning supplies will drop dramatically with conditioned water because you'll use less soap and fewer harsh chemicals and detergents to get the job done.

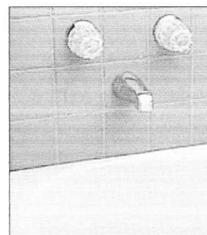

## **Dish Sparkler**

Tired of streaks and spots on glassware and dishes? Conditioned water eliminates the problem and helps your dishwasher last longer too.

## **Stain Eliminator**

All bathroom fixtures benefit from conditioned water. There will be no more unsightly rings, stains or mineral build-up to darken your porcelain or your day.

## **Scrubbing Helper**

Washing floors, tile and woodwork goes much easier and faster with conditioned water because it eliminates the film and soap scum that hard water causes.

## **Hot Water Guard**

Conditioned water adds longer life to your water heater by minimizing the scale build-up created by hard water minerals. Saves you money too. Less energy is required (17% to 21%) to heat water in tanks without a scale build-up.

## **Pipe Protector**

Over a period of time, scale forms to clog your plumbing. As the pipes clog, water flow is restricted and water pressure can be reduced dramatically. A water conditioning system minimizes this headache.

## **Faucet Preserver**

Hard water scale corrodes and plugs valves in water-using appliances. Shortens service life and costs you money.

## **Face Saver**

Say goodbye to razor burn as your razor glides smoothly over your soft water conditioned face.

## **Body Refresher**

Bring conditioned water to your bath or shower and you'll feel a refreshing difference. You'll wash "really clean" faster and without soap build-up on your skin. You'll come away more relaxed and refreshed than ever before.

## **Hair Pamperer**

A conditioned water shampoo revives hair color and makes it more radiant and manageable.
